	Examiner Matthew A. Thexton	Art Unit 1714	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION***Election/Restrictions***

Claims 1-46 are generic to a plurality of disclosed patentably distinct species comprising 1) various organo-phosphorus compounds, 2) various organo-phosphorus compounds in mixture with one or more additives, and 3) polymers in mixture with various organo-phosphorus compounds alone or in combination with one or more additives. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant's election must specify the organo-phosphorus compound, and if the election is to mixture 2) or 3) with one or more additives must also specify the additive(s); it is not necessary to specify the polymer if genus 3) is elected. Note that if no additive is elected/specified, the specified organo-phosphorus compound will be examined as a compound and claims 7-16, 19, 29-40, 43 and 44 will be withdrawn and the remaining claims examined only to the extent that they encompass the compound. Note that if a mix of an organo-phosphorus compound and one or more specific additives is elected then claims 29-40 will be withdrawn. Note that if a mix of an organo-phosphorus compound and one or more specific additives and polymer is elected then claims 1-28 and 41-46 will be withdrawn.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 1714

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Anthony Bisulca 704 331-7151 on 2005 September 26 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
